

Discord Bot Commands

Here are all the Discord Bot Commands available to you and how to use them

- [Survivors](#)

Survivors

Survivors:

- `/passwordreset` - resets the in-game password for the account tied to the user's discord id
 - This works in any text channel in Discord
 - The results of the command are hidden, you can do this in `#general` and nobody will see it
 - This will not work for admins, admin accounts are built different
 - Requires a whitelist entry in both databases
 - Options:
 - `password`: Define a custom password here. If left blank, a random password will be generated for you.
