

Discord Roles

Seen these shiny roles on people and wondering how you get one? Here's how!

Staff Roles

@Project Lead - The main man in charge of it all

@Community Manager - Same as Senior Admins, just more focused on the community aspect

@Senior Admin - The ancient ones, depended on for their wisdom and frail bones

@Admins - The event runners and ticket resolvers

@Moderators - Discord and game chat moderation

@Bar Hoppers - Sea Shanty event runners and girl bosses

Self-Assigned Roles

@Announcements - Get pinged for any server announcements

@Auction Announcements - Get pinged for any auctions going live in #the-repo-yard

Go to [#role-selection](#) to assign the above.

Loyalty Roles

@Touch Grass - ??? hours

@Chad - 2000 hours

@Absolute Unit - 1500 hours

@Chicken Chaser - 1000 hours

@Legends - 500 hours

@Survivors - Default role assigned when you pass whitelisting, gets pinged for any #events

These hours are read directly from the Battlemetrics site for APA:

<https://www.battlemetrics.com/servers/zomboid/18997347?!%3Atime=AT>

Roles are automatically assigned based on the player name that reached those hours. You will only receive a role for your current username in game and Discord. If you change your name, you will take the role of the new name instead.

Role updates are done once a day and are automatic. If you have been eligible for a role for over three days without receiving it then raise a ticket to let us know.
