

# #13 - Updates to Sanctuary and Bus Stops

Due to performance problems in previous seasons, items cannot be placed within Sanctuary fences and in the area immediately around any of the Bus Stops. This is to help keep common places for players lag-free.

All buildings within Sanctuary's fences must have admin permission. See [sanctuary-hoa](#) for more information.

Player shops require a Shop Deed that will allow you to claim a shop space. Create a [#ticket](#) to start the process.
