LBMW Radio Louisville EBS Message 5

Attention. Attention. This is the emergency broadcast system. This is a report from the governors office in Frankfurt. The state of conditions in Kentucky is critical. All communication with DC and the emergency seat of government has been lost. The Trimble county power station is severely damaged due to what we believe is the infected being drawn to the heat and noise from the facility. All citizens should seek shelter immediately. Do not attempt to evacuate your area until you are instructed to do so. Local law enforcement personnel should remain in their respective areas. State police have been assigned to more critical areas and additional state aid will become available and be assigned to the worst affected areas.
